Harrisburg, PA – The Pennsylvania Propane Gas Association (PAPGA) today issued the following statement after the Pennsylvania Department of Environmental Protection (DEP) issued permits late Monday, Feb. 13 that will allow construction to begin on the Mariner East 2 pipeline project:

“The Mariner East 2 pipeline project will benefit our industry by bringing more product to market, which will help the communities we serve and the customers who rely on us. The project also will bring thousands of construction jobs that will provide a boost all along the pipeline route and across the state. This is a unique opportunity for our commonwealth. Since our founding in 1947, PAPGA has made education and safety our top priority. We appreciate the work DEP has done to review this project, and we’re happy with the agency’s vote of confidence, knowing that this pipeline will be developed responsibly and operated safely for the benefit of all Pennsylvania.”

– Mark Delehanty, PAPGA Board of Director, Independence Propane, Green Lane, PA

The Pennsylvania Propane Gas Association (PAPGA) is a member-focused trade association providing services that communicate, educate and promote the propane industry in Pennsylvania. The association was formed in 1947 to offer opportunities to learn through training and networking with peers, and to aid with legislative issues that contribute to operating a safe and successful industry. PAPGA continues to focus on education, networking and representing the interest of Pennsylvania’s propane businesses to the government, while assisting members in remaining current on topics vital to the propane industry. The Pennsylvania Propane Gas Association is affiliated with the National Propane Gas Association (NPGA) and the Propane Education and Research Council (PERC).
